

# The Art of Beauty

Having a cosmetic dermatology practice is like owning a toy store for adults. There are so many “toys” I can play with to keep my patients, and myself, looking as young as we feel!

Dr. Lorrie J. Klein grew up in New Jersey. She attended Rutgers University, graduating Summa Cum Laude. She received her medical degree from UMDNJ Medical School. Dr. Klein completed her residency training in Dermatology at the University of California-Irvine (UCI), where she won the outstanding Resident Teacher of the Year Award. She is a Diplomate of the American Board of Dermatology (Board Certified). She is an Assistant Clinical Professor in Dermatology at UCI Medical School.

Philosophy: We should look as young as we feel. There are many easy, quick and safe procedures available with well trained dermatologists and plastic surgeons. Just make sure you find someone with cosmetic experience, the proper training and background and perhaps most importantly an eye for beauty and balance. Anyone with an MD or RN degree can inject something into you with a needle, but 90% of the results in cosmetic dermatology depend on the artistic technique of the injector.

#### ADDRESS

30201 Golden Lantern, Suite B  
Laguna Niguel, CA 92677  
949.363.1788
